

Laptop support

052.7145 Laptop support for double columned lifts with anti-collision

Product 052.7145, Laptop support, can be used as an accessory on the double-column lifts with standard anti-collision. The laptop support is mounted underneath the monitor in the center, height adjustable and provided with a cable transit to the monitor mount.

On the left side there are two mounting points in which a Neutrik connector can be placed. If you use this, users with their own laptop do not have to search for the correct connectors on the monitor.

Laptop support
