

Ceiling Mount for Sonos One, One SL and Play:1

- Precision engineered in high grade steel.
- Enables you to hold the speaker below the ceiling in the perfect sound location.
- Perfect for residential and commercial locations such as bars and gyms.
- Swivels 80° (40° right, 40° left) and tilt 15° down.
- Speaker can be mounted inverted for access to controls such as Sonos One microphone for smart home devices.
- Quick and easy installation.
- Available in black and white matching colour of Sonos speakers.
- Clever cable routing to ceiling.
